---

## EXPERIENCE

### Fullstack Developer

November 2023 - Ongoing, Online

Own Business

- Fully managed website creation and hosting for my clients, from conception to production.
- Managed SEO and Marketing for all sites published - Google/Facebook Ads

### Systems Engineer

February 2023 - November 2023, Kingston

Vertis Technology

- Configured and maintained over 200 user accounts with Windows Server and Microsoft Azure.
- Enhanced security and performance in both cloud-based and hybrid environments, resulting in a 20% reduction in downtime.
- Conducted server updates, improving system reliability and safety.
- Provided on-site support, resolving technical issues swiftly and ensuring minimal disruption.

---

## PROJECTS

**Social Media Network:** Developed a platform enabling real-time chat and video calling for students, enhancing study collaboration.

**Educational App:** Published a learning app for children on the Google Playstore, focusing reading with fun games.

**Video Splitting App:** Created an app that splits long videos and posts them to WhatsApp stories - Runs 1200x faster than competitor apps.

---
